# PRODUCT PORTFOLIO

INFORMATION FOR HEALTHCARE PROFESSIONALS

EVERYTHING WE DO IS AIMED TO IMPROVE PEOPLE'S WELLNESS AND BEAUTY

# ITALIAN RESEARCH & INNOVATION

## About our Company

Over 3.000.000 yearly treatments are performed globally, improving lives and enhancing well-being.

More than 80 countries covered worldwide.

Proudly developed and **manufactured in Italy**, our products embody the tradition of Italian craftsmanship and excellence.

## Italian Innovators in Aesthetic Excellence

At CMed Aesthetics, we are revolutionizing the fields of aesthetic medicine, dermatology and plastic surgery. Founded at the intersection of pharmaceutical expertise and commercial innovation, our company is dedicated to pushing the boundaries of possibility. With a keen focus on research and development, we have introduced several patented medical devices alongside a bi-phasic patented formulation technology and a pioneering sterilization method, all of which are reshaping industry standards.

Our core values form the bedrock of our operations, guiding every decision and action we take. Integrity, excellence and customer-centricity are not just words to us—they are the principles by which we operate. By blending cutting-edge technology with a deep understanding of market dynamics, we deliver products that exceed expectations and drive positive change.

Driven by a commitment to excellence, we adhere to stringent pharmaceutical standards to ensure the highest levels of quality and safety. Our products undergo rigorous testing and scrutiny, guaranteeing their efficacy and reliability. With a global footprint spanning over 80 countries, we are proud to serve healthcare professionals and patients worldwide, providing them with innovative solutions that enhance their well-being.

**R&D dedicated to the aesthetic medicine**

# BioReTherapy

The best practice in Biorevitalization

Biostimulating | Revitalizing | Peeling

A complete biorevitalizing line with a medical peeling effect based on BioRePeelCl<sub>3</sub><sup>®</sup> exfoliating power and post-treatment solutions, BioReHydra<sup>®</sup> serum and BioReLift<sup>®</sup> cream, specifically developed for normal, combination, dry and oily skin.

# BioRePeelCl<sub>3</sub><sup>®</sup>

Biostimulating, Revitalizing & Moisturizing peeling  
with **BIPHASIC TECHNOLOGY<sup>®</sup>**

**TCA 35%**

**BioRePeelCl<sub>3</sub><sup>®</sup> FND**

Face | Neck | Décolleté

5 vials x 6 mL each

**TCA 50%**

**BioRePeelCl<sub>3</sub><sup>®</sup> BODY**

Hands | Elbows | Glutes | Knees | Feet

3 vials x 12 mL each

## PATENTED MEDICAL DEVICE

Manufactured according to pharmaceutical standards to guarantee the highest quality. Peeling action promotes the biostimulating effect of active ingredients.

## THE GOLD STANDARD OF MEDICAL PEELING

FAST AND PAINLESS

NO POST TREATMENT SIGNS

FOR ALL AGES AND FITZPATRICK I-VI

IMMEDIATE RESULTS

NON PHOTOSENSITIZING

BioRePeelCl<sub>3</sub><sup>®</sup> is a biphasic system,  
the blue phase is **lipophilic** and the yellow phase is **hydrophilic**.

### LIPOPHILIC PHASE

- **STABILIZES AND PROTECTS THE FORMULATION**
- **REGENERATING AND MOISTURIZING ACTION**  
Restores and maintains cutaneous hydro-lipidic film.
- **VEHICULATING ACTIONS**  
Reduces trans-epidermic water evaporation and assists active principles' vehiculation.

### HYDROPHILIC PHASE

- **BIOSTIMULATING ACTION**  
Supports the physiological collagen turnover.
- **REVITALIZING ACTION**  
Reduces fine lines through neutralization of free radicals.
- **PEELING ACTION**  
Removes outer cells of stratum corneum by breaking corneocytes' adesion bonds. This process improves the action of active ingredients, preventing acne formation.

## POST TREATMENT CREAM & SERUM

Created to improve the results obtained during and after the BioRePeelCl<sub>3</sub><sup>®</sup> protocol

### BioReLift<sup>®</sup>

#### Post Treatment Cream

Face | Body

Formulated as a light emulsion of easy absorption, with a silky texture and a soft and enveloping skin feel.

**Specific for  
Dry Skin**

30 mL for home use

200 mL for outpatient use

### BioReHydra<sup>®</sup>

#### Post Treatment Serum

Face | Body

Hydrogel formulation with a light, fast-absorbing texture that gives a fresh, moisturizing and lifting skin feel.

**Specific for  
Oily Skin**

30 mL for home use

200 mL for outpatient use

# OUR RESULTS

MALE | AGE 19  
3 sessions with BioRePeelCl<sub>3</sub>® FND

FEMALE | AGE 47  
2 sessions with BioRePeelCl<sub>3</sub>® FND

FEMALE | AGE 35 | 1 session with BioRePeelCl<sub>3</sub>®  
BODY + Microneedling

MALE | AGE 36  
2 sessions with BioRePeelCl<sub>3</sub>® BODY

# ARES<sup>®</sup>

Advanced Regenerative Esthetics Solution

MESOTHERAPY LINE

ARES® is a complete range of age defying treatments developed for deep and long-term benefits for all body zones. ARES® derives its benefits from HA sterilized using NTS® technology.

**AA** ANTI-AGE

**AK** DERMO RESTRUCTURANT

**AO** ANTI-OXIDANT

**HB** HAIR BOOSTER

# NTS<sup>®</sup>

TECHNOLOGY

## HYALURONIC ACID

ARES<sup>®</sup> range is based on a mixture of 3 different molecular weights of hyaluronic acid and specific formulations for each different function.

The HA we use is CE-marked certified to be used as injectable.

## Non Thermal Stress Technology

### THE REAL INNOVATION

of our patented production method is based on a technique of filtering the hydrogels under a vacuum, without exposing them to high temperatures.

This means that the hyaluronic acid, vitamins and peptides we mix in our formulations are preserved during the whole production chain, to guarantee high standards of quality and shelf life stability.

#### MICRONEEDLING DEVICES:

DERMA PEN

MULTI-NEEDLE

ELECTROPORATION

## ARES® AA ANTI-AGE

Used on aged and wrinkled skin, it restores elasticity by stimulating the synthesis of collagen, hyaluronic acid and elastin.

4 vials x 4 mL each

**RECOMMENDED QUANTITY:**  
2 mL for each area

**PROCEDURE:**  
3-4 sessions every  
15-20 days

## ARES® AK DERMO RESTRUCTURANT

Developed as a metabolic stimulator and moisturiser for the treatment of tired looking skin and all types of tissue scarring.

4 vials x 4 mL each

**RECOMMENDED QUANTITY:**  
2 mL for each area

**PROCEDURE:**  
3-4 sessions every  
15-20 days

#### MICRONEEDLING DEVICES:

DERMA PEN

MULTI-NEEDLE

ELECTROPORATION

## ARES<sup>®</sup> AO ANTI-OXIDANT

This product is an anti-aging treatment. Used for photo and chrono ageing, skin with lack of radiance, it restores the skins' natural balance.

4 vials x 4 mL each

#### RECOMMENDED QUANTITY:

2 mL for each area

#### PROCEDURE:

3-4 sessions every  
15-20 days

## ARES<sup>®</sup> HB HAIR BOOSTER

A complex solution that is used to treat the most common scalp diseases. Working on hair regrowth, hair loss prevention, microcirculation and micronutrients supplementation.

4 vials x 4 mL each

#### RECOMMENDED QUANTITY:

2 mL for each area

#### PROCEDURE:

3-4 sessions every  
15-20 days

# OUR RESULTS

FEMALE | AGE 54  
2 sessions with ARES® AK

MALE | AGE 36  
5 sessions with ARES® HB

FEMALE | AGE 27  
3 sessions with ARES® AA

FEMALE | AGE 47  
2 sessions with ARES® AO

# LUMINESCENS<sup>®</sup>

Depigmenting & Brightening Solution

MESOTHERAPY PROTOCOL

A mesotherapy protocol specifically designed for the treatment of skin hyperpigmentation, compatible with all phototypes, oily and dry skin.

## LUMINESCENS<sup>®</sup> Professional Kit

Face | Body

**For clinical use**

2 mesotherapy vials x 4 mL each  
+ 1 cream bottle 30 mL

## LUMINESCENS<sup>®</sup> Home Cream

Face | Body

**For outpatient use**

1 cream bottle 30 mL

# STRENGTHS

Innovative formulation for hyperpigmentation mesotherapy treatment.

No post treatment downtime and no mask needed to be applied for 6-12 hours, unlike other leading products.

No negative impact on daily life.

Cutting-edge formulation, rich in active ingredients, adapted for home treatment with noticeable results with maximum safety and comfort.

## CLINICALLY TESTED RESULTS

Scientifically proven reduction of spots and dermatologically tested.

Study of the effect and cosmetic properties of a product through evaluations and instrumental analysis performed by professionals under medical supervision and consumer self assessments.

MULTI-NEEDLE

ELECTROPORATION

## MECHANISM OF ACTION

### Melanogenic enzyme blockers

#### TYROSINASE INHIBITORS

Oligopeptide-34, Tranexamic acid <sup>(1)</sup>, Aminoethyl phosphinic acid & Glycyrrhetic acid, Azelaic acid <sup>(2)</sup>, Arbutin <sup>(3)</sup>, Phenylethyl resorcinol <sup>(4)</sup>, Silybum marianum extract <sup>(5)</sup>, Glabridin <sup>(6)</sup>.

### Melanin formation and transport blockers

#### COPPER CHELATORS AND MC1R ENZYME INHIBITORS

Ellagic acid & Phytic acid, Acetyl tetrapeptide-2, Potassium azeloyl diglycinate <sup>(8)</sup>, Biomimetic peptides, Hexapeptide-40 sh-polypeptide-76 inhibitory, Acetyl hexapeptide-1 <sup>(9)</sup>.

### Increase cellular turnover

#### REMOVAL OF PRE-EXISTING MELANIN

Citric acid, Tartaric acid, Salicylic acid, Retinol <sup>(10)</sup>.

### Antioxidants

#### ANTI FREE RADICAL ACTION

Peptide CG-TGP2, Glutathione, Tocopheryl acetate.

# OUR RESULTS

FEMALE | AGE 45  
Result after 30 days of treatment

FEMALE | AGE 43  
Result after 60 days of treatment

FEMALE | AGE 32  
Result after 30 days of treatment

FEMALE | AGE 41  
Result after 60 days of treatment

1) Tranexamic acid inhibits melanogenesis partially via stimulation of TGF- $\beta$ 1 expression in human epidermal keratinocytes. Xiaoxue Xing, Zhongyi Xu, Li Chen, Shanglin Jin, Chengfeng Zhang, Lihong Xiang. 2) Melanin hyperpigmentation of skin: melasma, topical treatment with azelaic acid, and other therapies. *A S Breathnach*. Affiliations expand • PMID: 8654129. 3) Arbutin as a Skin Depigmenting Agent with Antimelanogenic and Antioxidant Properties. Yong Chool Boo. 4) Characterization and topical delivery of phenylethyl resorcinol. Y. Zhang, B. C. Si, C.-P. Kung, J. Hadgraft, M. Heinrich, B. Sinko, M. E. Lane. 5) The treatment of melasma by silymarin cream. *Tagreed Altaei BMC Dermatology* volume 12, Article number: 18 (2012) Cite this article. 6) The inhibitory effect of glabridin from licorice extracts on melanogenesis and inflammation. Yokota T, H Nishio, Y Kubota, M Mizoguchi. 7) Efficiency of ellagic acid and arbutin in melasma: a randomized, prospective, open-label study. Işgen Ertem 1, Başak Mutlu, İdil Unal, Sibel Alpar, Bijen Kıvınc, Özgen Özer. 8) Maramaldi G, Esposito M, Potassium Azeloyl Diglycinate. *Cosm & Toiletry*. 2002;117:3. [Google Scholar] [Ref list]. 9) Up- or downregulation of melanin synthesis using amino acids, peptides, and their analogs. Yong Chool Boo 1, 2, 3. 10) Gupta AK, Gover MD, Nouri K, Taylor S. The treatment of melasma: A review of clinical trials. *J Am Acad Dermatol*. 2006;55:1048-65.
